I intend to use the Modular Earth Submodel System (MESSy) within the COSMO-CLM model (COSMO-CLM/MESSy). For my work I want to apply the diagnostic submodels which are provided to the CLM-Community.

Additionally I plan to (cross out if not applicable):

- modify the following diagnostic submodel(s): _____
- add an additional diagnostic submodel with the following functionality:

I accept the MESSy Memorandum of Understanding (MoU) and the End-User Licence Agreement (EULA).
